play for fun!**

SPORTBALL MULTI-SPORT

By applying our methodology... Sportball helps children to develop socially as well as physically, through a curriculum designed to reinforce self-confidence free from the pressure of competition. Sportball Multi-Sport programs introduce children to the fundamental concepts and skills behind eight popular ball sports.

Using creative instruction and positive encouragement, our programs focus on the development of gross motor skills, along with balance, strength, co-ordination, stamina and timing.
