

Speeding in the Parking Garage

Residents are asked to use care when driving in the underground garage. We have had several reports of unsafe driving which include passing other vehicles, racing and tailgating.

As you know unsafe driving is a concern for several reasons, there are other residents walking to and from their vehicles, some with small children. Luckily no one has been injured.

We kindly request that all drivers do not exceed the posted 10 kilometer per hour speed limit in the parking garage.
